

August 31, 2020

CARE volunteers should be given an hour or so to present to our entire school so everyone in every grade in our high school can know about this information, because this stuff can make or break your future.
– Nathan, High School Senior

Dear Friends,

Now more than ever, young adults need the financial literacy information that CARE offers so they can make important decisions about their future.

Beginning this fall, we are implementing innovative programs in partnership with students and teachers to help reach more young people at home with our online virtual financial literacy workshops. To continue this work, we are asking for your support of CARE this school year through our **2020- 21 Power Hour Campaign**. Your contributions enable CARE to:

- Develop new materials geared towards a virtual format.
- Leverage new technology that improves delivery and accessibility of our programs and materials.
- Train volunteers on the best practices in delivering virtual presentations.
- Expand and diversify our volunteer base.

As a supporter, we'll share stories of impact with you throughout the school year. Additionally, we pledge to leverage your donation with volunteer hours and donated in-kind resources from like-minded organizations.

We conclude our request with one question: What can a CARE volunteer do in one hour? **Change a life.** Please consider donating in honor of our volunteers at **care4yourfuture.org/powerhour**. Together, we can help youth build stronger financial futures.

With gratitude,

Tammy Hettinger
Executive Director
